**RE: 1605(b) Guidelines
Request for Extension of Comment Period**

Dear Mr. Friedrichs:

Anadarko Petroleum Corporation ("Anadarko") has begun reviewing the General Guidelines and the Draft Technical Guidelines for voluntary reporting of greenhouse gas emissions published by the Department of Energy in the Federal Register on March 24, 2005 (70 Fed. Reg. 15164). The Federal Register notice states that the comment period will close on May 23, 2005. Due to the complexity of the Draft Technical Guidelines and the lack of detail regarding geologic sequestration, Anadarko requests an extension of the comment period for an additional sixty days to allow sufficient time to fully analyze the Department's proposal and provide meaningful comment.

Sincerely,

A handwritten signature in black ink that reads "Natalie Eades".

Natalie Eades
